Homework Assignment 0: Survey

Person ID	Problem	App or Website Found	Likes	Don't Likes	Improve-ments	Age	Gender	Education/ occupation	Comments
1.	Tracking the Cost and Availability of the product in the online store	Off Course every Online shopping app provides the Notify me option when the product is available i.e., back to stock	It notifies by sending email when the item is back to stock	It does not track or notify when the cost of the item is reduced.	We can add tracking of the cost of the product and notify based on the cost	24	F	Pursuing Masters	Monitoring product cost and availability in an online store ensures better inventory control
2.	Ordering Cake for birthdays	Door Dash	Home delivery and Fast delivery option	Does not give chance to customize as per their needs	Should give option for the customers to customize with the Message on the cake etc.	24	M	Pursuing Masters	
3.	waiting in long lines in the crossroads café to place their order	Should use some online app or website to place the order. - **Grub hub**	People need not stand for long time to place their order, Wide Restaurant Selection.	Service Fees and Delivery Charges	Provide Customization Options	25	F	Pursuing Masters and Working as part time employee in Crossroads	
4.	Keeping the track of the homework and Assignments	This can be done by Jira (Project Management tools)	It keeps track and reminds us of when the deadline is close by.	Bit Complex	May be less complex app can be built	22	F	Undergraduate student	My UML, Blackboard app keeps the track and Notify students
